

# ROSLYN WATER DISTRICT

Michael J. Kosinski, Chairman  
William K. Costigan, Treasurer  
Sanford E. Klein, Secretary

Richard J. Passariello, Superintendent

24 WEST SHORE ROAD  
ROSLYN, NEW YORK 11576-1448  
(516) 621-7770  
FAX (516) 621-9630

## APPLICATION TO INSTALL OR MODIFY UNDERGROUND LAWN SPRINKLER SYSTEM

### ROSLYN WATER DISTRICT

Owner's Name \_\_\_\_\_

Owner's Telephone Number \_\_\_\_\_

Owner's Cell Phone Number \_\_\_\_\_

Owner's E-Mail \_\_\_\_\_

Address of Property Owner to be Supplied Water Under this Application:

\_\_\_\_\_  
\_\_\_\_\_

Application if for:

- New System \_\_\_\_\_
- Modification of existing system \_\_\_\_\_

Contractor information:

Name \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_ Fax \_\_\_\_\_ Cell \_\_\_\_\_

Proposed date work will begin \_\_\_\_\_

System will be equipped with:

Automatic Time Clock (\*EPA WaterSense) Yes \_\_\_\_\_ No \_\_\_\_\_

Soil Moisture Sensor Yes \_\_\_\_\_ No \_\_\_\_\_

Rain Sensor Yes \_\_\_\_\_ No \_\_\_\_\_

Double Check Valve Backflow Preventer Yes \_\_\_\_\_ No \_\_\_\_\_

***\*New Automatic Irrigation Systems – All new automatic irrigation systems must be equipped with an EPA WaterSense labeled controller.***

Sprinkler System supply line will be connected to:

- Water service after water meter: \_\_\_\_\_
- Other line supplying water to the premises after water meter: \_\_\_\_\_
- Will any connections for the system be made in the meter pit:  
     Yes: \_\_\_\_\_                      No: \_\_\_\_\_

*One set of plans must be attached to application. The plan must be drawn to scale no smaller than 1-inch / 40 ft. Plan must show the name of property owner, layout of the system, boundary lines of the property, number of sprinkler zones, maximum sprinkler flow, source of water supply, size of supply line, location of meter pit, location of backflow prevention device and location of EPA WaterSense labelled controller.*

**System must be made available for inspection upon completion of work.**

I \_\_\_\_\_ certify that I am the owner of the property  
 (Print Name)

at \_\_\_\_\_ and hereby apply for a Roslyn Water District automatic irrigation system permit for said premise and agree that I will comply with all the provision of the Roslyn Water District Ordinance / Rules and Regulations.

\_\_\_\_\_  
 (Signature) (Date)

\_\_\_\_\_

Application Approved: \_\_\_\_\_  
(Roslyn Water District) (Date)

WaterSense® Labeled

# Irrigation Controllers

Residential outdoor water use in the United States accounts for nearly 9 billion gallons of water each day, mainly for landscape irrigation. Experts estimate that as much as 50 percent of this water is wasted due to overwatering caused by inefficiencies in irrigation methods and systems. Irrigation control technologies can significantly reduce overwatering by applying water only when plants need it.

### SMART WATERING

WaterSense labeled irrigation controllers, which act like a thermostat for your sprinkler system by telling it when to turn on and off, use local weather and landscape conditions to tailor watering schedules to actual conditions on the site. Instead of irrigating using a controller with a clock and a preset schedule, WaterSense labeled controllers allow watering schedules to better match plants' water needs. With proper installation, programming, and maintenance, homeowners and businesses can use WaterSense labeled controllers instead of standard clock-timer controllers on their existing systems, and no longer worry about wasted water.

WaterSense labeled irrigation controllers allow watering schedules to better match plants' needs.

### WATERSENSE SAVINGS

Replacing a standard clock timer with a WaterSense labeled irrigation controller can save an average home nearly 8,800 gallons of water annually. If every home in the United States with an automatic irrigation system installed and properly operated a WaterSense labeled irrigation controller, we could save \$435 million in water costs and 120 billion gallons of water across the country annually from not overwatering lawns and landscapes. That's equal to the annual household water needs of nearly 1.3 million average American homes.

### LOOK FOR THE WATERSENSE LABEL!

To earn the WaterSense label, landscape irrigation controllers must be able to adequately meet the watering needs of a landscape without overwatering. As with all other WaterSense labeled products, WaterSense labeled controllers are third-party certified to ensure that they meet the WaterSense criteria for efficiency and performance. For more information or a list of WaterSense labeled products, visit [www.epa.gov/watersense](http://www.epa.gov/watersense).
